Criteria

Adjudicating criteria for children and adolescent literature in translation

Definition of *Translation* in this context for the purpose of competing for the Award is the following:

a linguistic interpretation of a literary text of universally-accepted literary genres originally written in any language (to be referred to as the Source Language) into Maltese (to be referred to as the Target Language).

Linguistic interpretation is hereby defined as:

a textual rendering where a reasonable balance is kept between “faithfulness” to the original authorial intention in both content and form, and the translated/adapted text incorporating intrinsic and accepted literary values in its own right.

Broadly speaking, there are **two main criteria**, to be adhered to:

1. The texts translated are to have **as close and as faithful an interpretation as possible to the original**, whether this text is **directly** translated from the source, or whether through the intermediary bridge language of English.

Faithfulness (accuracy and precision) 60%	Marks
significance of the translated work in terms of subject matter for the target culture/audience	15
evidence of close, critical and creative reading of original text leading to valid & faithful interpretation	15
translator’s knowledge of the <i>source text</i> historical, political, socio-cultural & literary context in which the text was produced	15
nuanced sense and appreciation of the discourse-stylistics of the original (i.e. use of language for the desired effect/s) and use of additions and deletions to find an equivalence of meaning	15

Comments:

2. The translated texts for the three categories: children - ages 0-7, children - ages 8-12, and young adult literature, that is, those translated **directly** in the target language Maltese from the four languages: French, Italian, German, Spanish are to be **judged on their own literary linguistic merits, as distinct from their adherence to the original form and content**. Effectively, these translated texts in all the accepted categories (Books for Children, ages 0-7 and 8-12, and Books for Young Adults) are to be adjudicated through the criteria as stated below. The mark calculated from the criteria marked below should reflect **40% of the total mark**.
